pear	2	

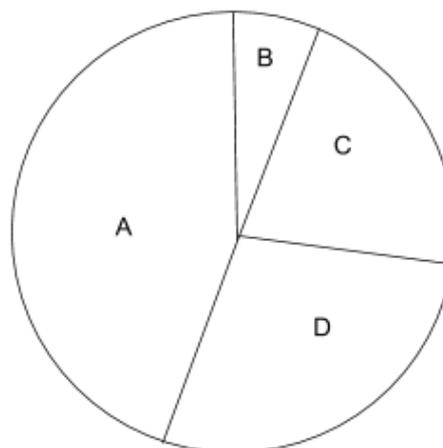

2. A teacher is carrying out a survey about healthy eating in school. She asks **20 pupils** to choose the fruit they like best. Their choices are shown in the table below. For example: **7 children** choose banana. **The table has some blank spaces.** To complete the table, **look at the pie chart below.** Use the pie chart to write the **correct letter** in each space.

Fruit	Number of Children	Section of Pie Chart
banana	7	
apple	2	
orange	6	
pear	5	

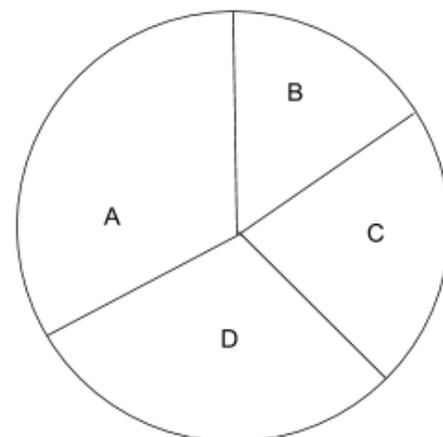

3. A teacher is carrying out a survey about healthy eating in school. She asks **30 pupils** to choose the fruit they like best. Their choices are shown in the table below. For example: **12 children** choose banana. **The table has some blank spaces.** To complete the table, **look at the pie chart below.** Use the pie chart to write the **correct letter** in each space.

Fruit	Number of Children	Section of Pie Chart
banana	12	
apple	6	
orange	9	
pear	3	

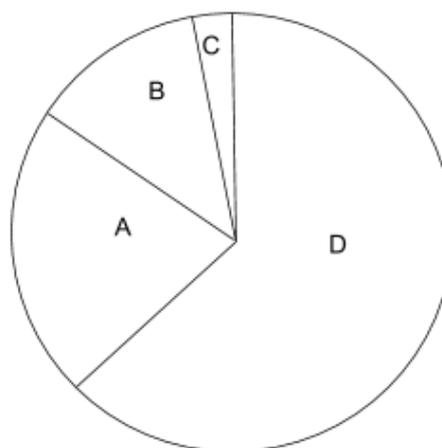

4. A teacher is carrying out a survey about healthy eating in school. She asks **30 pupils** to choose the fruit they like best. Their choices are shown in the table below. For example: **11 children** choose banana. **The table has some blank spaces.** To complete the table, **look at the pie chart below.** Use the pie chart to write the **correct letter** in each space.

Fruit	Number of Children	Section of Pie Chart
banana	11	
apple	9	
orange	6	
pear	4	

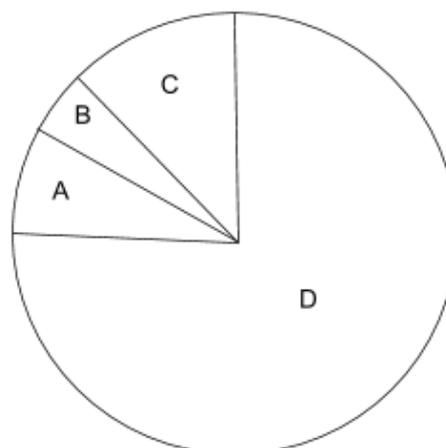

5. A teacher is carrying out a survey about healthy eating in school. She asks **40 pupils** to choose the fruit they like best. Their choices are shown in the table below. For example: **24 children** choose banana. **The table has some blank spaces.** To complete the table, **look at the pie chart below.** Use the pie chart to write the **correct letter** in each space.

Fruit	Number of Children	Section of Pie Chart
banana	24	
apple	6	
orange	8	
pear	2	

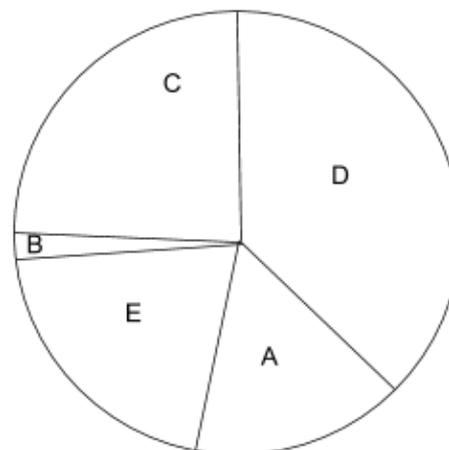

6. A teacher is carrying out a survey about healthy eating in school. She asks **40 pupils** to choose the fruit they like best. Their choices are shown in the table below. For example: **30 children** choose banana. **The table has some blank spaces.** To complete the table, **look at the pie chart below.** Use the pie chart to write the **correct letter** in each space.

Fruit	Number of Children	Section of Pie Chart
banana	30	
apple	2	
orange	3	
pear	5	

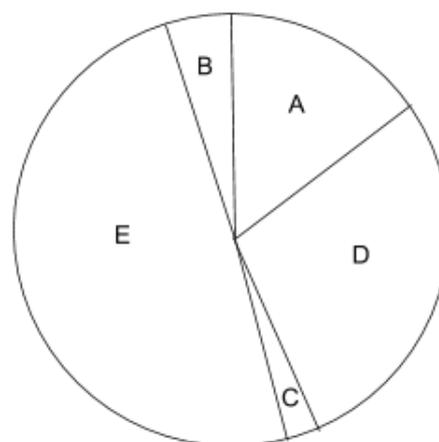

7. A teacher is carrying out a survey about healthy eating in school. She asks **50 pupils** to choose the fruit they like best. Their choices are shown in the table below. For example: **20 children** choose banana. **The table has some blank spaces.** To complete the table, **look at the pie chart below.** Use the pie chart to write the **correct letter** in each space.

Fruit	Number of Children	Section of Pie Chart
banana	20	
apple	10	
orange	13	
pear	6	
grape	1	

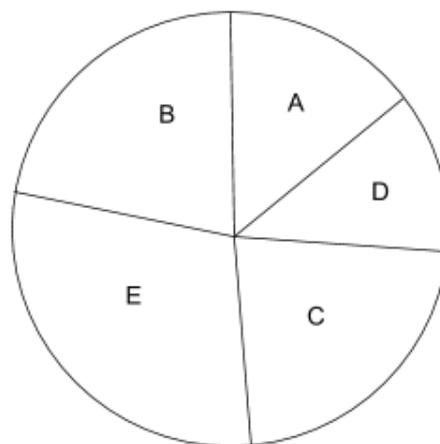

8. A teacher is carrying out a survey about healthy eating in school. She asks **50 pupils** to choose the fruit they like best. Their choices are shown in the table below. For example: **15 children** choose banana. **The table has some blank spaces.** To complete the table, **look at the pie chart below.** Use the pie chart to write the **correct letter** in each space.

Fruit	Number of Children	Section of Pie Chart
banana	15	
apple	8	
orange	1	
pear	23	
grape	3	

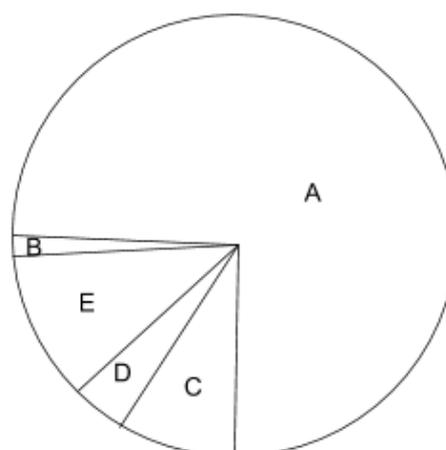

9. A teacher is carrying out a survey about healthy eating in school. She asks **60 pupils** to choose the fruit they like best. Their choices are shown in the table below. For example: **7 children** choose banana. **The table has some blank spaces.** To complete the table, **look at the pie chart below.** Use the pie chart to write the **correct letter** in each space.

Fruit	Number of Children	Section of Pie Chart
banana	7	
apple	15	
orange	9	
pear	13	
grape	16	

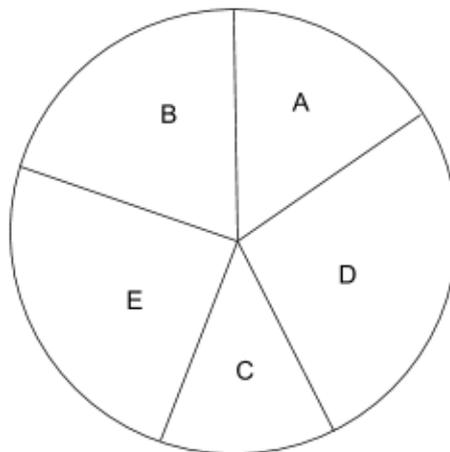

10. A teacher is carrying out a survey about healthy eating in school. She asks **60 pupils** to choose the fruit they like best. Their choices are shown in the table below. For example: **45 children** choose banana. **The table has some blank spaces.** To complete the table, **look at the pie chart below.** Use the pie chart to write the **correct letter** in each space.

Fruit	Number of Children	Section of Pie Chart
banana	45	
apple	6	
orange	1	
pear	5	
grape	3	

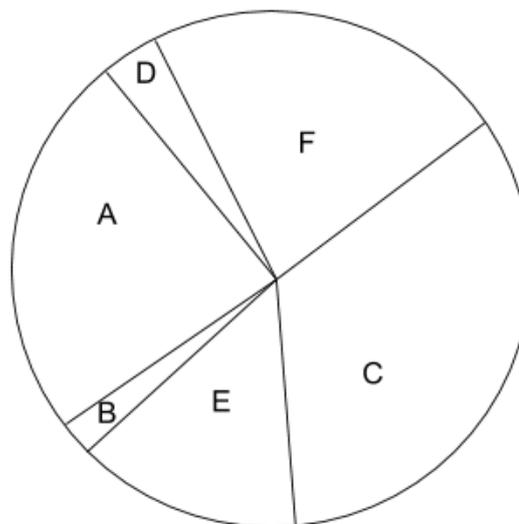

11. A teacher is carrying out a survey about healthy eating in school. She asks **70 pupils** to choose the fruit they like best. Their choices are shown in the table below. For example: **14 children** choose banana. **The table has some blank spaces.** To complete the table, **look at the pie chart below.** Use the pie chart to write the **correct letter** in each space.

Fruit	Number of Children	Section of Pie Chart
banana	14	
apple	17	
orange	11	
pear	21	
grape	7	

12. A teacher is carrying out a survey about healthy eating in school. She asks **80 pupils** to choose the fruit they like best. Their choices are shown in the table below. For example: **15 children** choose banana. **The table has some blank spaces.** To complete the table, **look at the pie chart below.** Use the pie chart to write the **correct letter** in each space.

Fruit	Number of Children	Section of Pie Chart
banana	15	
apple	11	
orange	19	
pear	23	
grape	8	
melon	4
