1. Look at the **square** below.
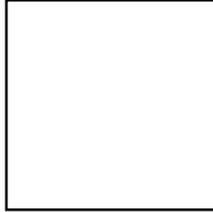

How many **sets** of parallel lines does this **square** have? Write your answer in the space below

_____

How many perpendicular lines does this **square** have? Write your answer in the space below.

_____

2. Look at the **rectangle** below.

How many **sets** of parallel lines does this **rectangle** have? Write your answer in the space below

_____

How many perpendicular lines does this **rectangle** have? Write your answer in the space below.

_____

3. Look at the **parallelogram** below.

How many **sets** of parallel lines does this **parallelogram** have? Write your answer in the space below

_____

How many perpendicular lines does this **parallelogram** have? Write your answer in the space below.
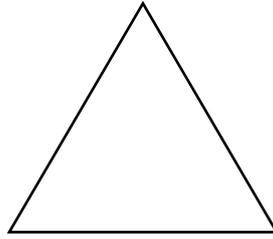

_____

4. Look at the **rhombus** below.

How many **sets** of parallel lines does this **rhombus** have? Write your answer in the space below

_____

How many perpendicular lines does this **rhombus** have? Write your answer in the space below.

_____

5. Look at the **equilateral triangle** below.

How many **sets** of parallel lines does this **equilateral triangle** have? Write your answer in the space below
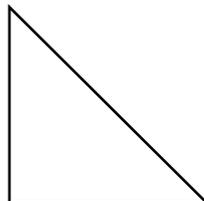

_____

How many perpendicular lines does this **equilateral triangle** have? Write your answer in the space below.

_____

6. Look at the **right angled triangle** below.

How many **sets** of parallel lines does this **right angled triangle** have? Write your answer in the space below

_____

How many perpendicular lines does this **right angled triangle** have? Write your answer in the space below.
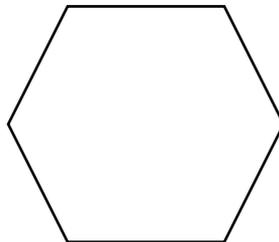

_____

7. Look at the shape below.

How many **sets** of parallel lines does this shape have? Write your answer in the space below

_____

How many perpendicular lines does this shape have? Write your answer in the space below.

_____

8. Look at the **regular hexagon** below.

How many **sets** of parallel lines does this **regular hexagon** have? Write your answer in the space below

_____

How many perpendicular lines does this **regular hexagon** have? Write your answer in the space below.

_____

9. Look at the **trapezium** below.

How many **sets** of parallel lines does this **trapezium** have? Write your answer in the space below

_____

How many perpendicular lines does this **trapezium** have? Write your answer in the space below.

_____

10. Look at the shape below.

How many **sets** of parallel lines does this shape have? Write your answer in the space below
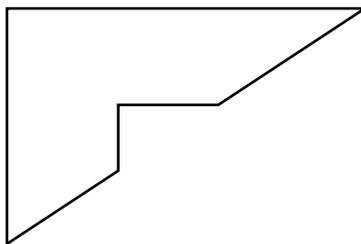

_____

How many perpendicular lines does this shape have? Write your answer in the space below.

_____

11. Look at the shape below.

How many **sets** of parallel lines does this shape have? Write your answer in the space below

_____

How many perpendicular lines does this shape have? Write your answer in the space below.

_____

12. Look at the shape below.

How many **sets** of parallel lines does this shape have? Write your answer in the space below

_____

How many perpendicular lines does this shape have? Write your answer in the space below.

_____
