

Q2 (Conversion) Day 80 Name: _____

1. There are **1000 volts** in **one kilovolt**. **Complete** the table below. One of the calculations has been done for you.

Number of volts	Number of kilovolts
2000	2
800	
	0.3

2. There are **1000 volts** in **one kilovolt**. **Complete** the table below. One of the calculations has been done for you.

Number of volts	Number of kilovolts
2000	2
600	
	6.2

3. There are **1000 volts** in **one kilovolt**. **Complete** the table below. One of the calculations has been done for you.

Number of volts	Number of kilovolts
2000	2
350	
	0.7

4. There are **1000 volts** in **one kilovolt**. **Complete** the table below. One of the calculations has been done for you.

Number of volts	Number of kilovolts
2000	2
900	
	9

5. There are **1000 volts** in **one kilovolt**. **Complete** the table below. One of the calculations has been done for you.

Number of volts	Number of kilovolts
2000	2
1321	
	0.05

6. There are **1000 volts** in **one kilovolt**. **Complete** the table below. One of the calculations has been done for you.

Number of volts	Number of kilovolts
47	2
750	
	0.74

7. There are **1000 volts** in **one kilovolt**. **Complete** the table below. One of the calculations has been done for you.

Number of volts	Number of kilovolts
2000	2
89	
	3.02

8. There are **1000 volts** in **one kilovolt**. **Complete** the table below. One of the calculations has been done for you.

Number of volts	Number of kilovolts
2000	2
3333	
	0.005

9. There are **1000 volts** in **one kilovolt**. **Complete** the table below. One of the calculations has been done for you.

Number of volts	Number of kilovolts
2000	2
196	
	1.002

10. There are **1000 volts** in **one kilovolt**. **Complete** the table below. One of the calculations has been done for you.

Number of volts	Number of kilovolts
2000	2
6	
	0.061

11. There are **1000 volts** in **one kilovolt**. **Complete** the table below. One of the calculations has been done for you.

Number of volts	Number of kilovolts
2000	2
149	
	0.001

12. There are **1000 volts** in **one kilovolt**. **Complete** the table below. One of the calculations has been done for you.

Number of volts	Number of kilovolts
2000	2
82	
	47

Answers

1. 0.8	300
2. 0.6	6200
3. 0.35	700
4. 0.9	9000
5. 1.321	50
6. 0.75	740
7. 0.089	3020
8. 3.333	5
9. 0.196	1002
10.0.006	61
11.0.149	1
12.0.082	47000
