

Q5 (Comparing Angles) Day 73 Name: _____

1. Below are two shapes. A **quadrilateral** (A), an **equilateral triangle** (B).

(A)

(B)

How much **bigger** is angle x than angle y ? Write your answer in the space below.

_____ $^\circ$

2. Below are two shapes. A **quadrilateral** (A), **right-angled triangle** (B).

(A)

(B)

How much **bigger** is angle x than angle y ? Write your answer in the space below.

_____ $^\circ$

3. Below are two shapes. A **quadrilateral** (A), **right-angled** triangle (B).

(A)

(B)

How much **bigger** is angle **x** than angle **y**? Write your answer in the space below.

_____°

4. Below are two shapes. A **quadrilateral** (A), **scalene** triangle (B).

(A)

(B)

How much **bigger** is angle **x** than angle **y**? Write your answer in the space below.

_____°

5. Below are two shapes. A **quadrilateral** (A), **scalene triangle** (B).

(A)

(B)

How much **smaller** is angle **x** than angle **y**? Write your answer in the space below.

_____°

6. Below are two shapes. A **quadrilateral** (A), **isosceles triangle** (B).

(A)

(B)

How much **bigger** is angle **x** than angle **y**? Write your answer in the space below.

_____°

7. Below are two shapes. A **quadrilateral** (A), **scalene triangle** (B).

(A)

(B)

How much **bigger** is angle **x** than angle **y**? Write your answer in the space below.

_____°

8. Below are two shapes. A **quadrilateral** (A), **scalene triangle** (B).

(A)

(B)

How much **bigger** is angle **x** than angle **y**? Write your answer in the space below.

_____°

9. Below are two shapes. A **quadrilateral** (A), **equilateral** triangle (B).

(A)

(B)

How much **smaller** is angle x than angle y ? Write your answer in the space below.

_____ $^\circ$

10. Below are two shapes. A **quadrilateral** (A), **right-angled** triangle (B).

(A)

(B)

How much **bigger** is angle x than angle y ? Write your answer in the space below.

_____ $^\circ$

11. Below are two shapes. A **quadrilateral** (A), **isosceles triangle** (B).

(A)

(B)

How much **smaller** is angle x than angle y ? Write your answer in the space below.

_____°

12. Below are two shapes. A **quadrilateral** (A), **right-angled triangle** (B).

(A)

(B)

How much **bigger** is angle x than angle y ? Write your answer in the space below.

_____°

Answers

1. 96
2. 62
3. 32
4. 66
5. 6
6. 168
7. 51
8. 233
9. 16
10. 118
11. 69
12. 122.5
