

Q3 (Symmetry) Day 105 Name: _____

1. Look at the **equilateral triangle** below how many lines of symmetry does it have?

Tick the correct answer below.

- 1 lines of symmetry ☐
- 2 lines of symmetry ☐
- 3 lines of symmetry ☐

2. Look at the **rectangle** below how many lines of symmetry does it have?

Tick the correct answer below.

- 0 lines of symmetry ☐
- 2 lines of symmetry ☐
- 4 lines of symmetry ☐

3. Look at the **square** below how many lines of symmetry does it have?

Tick the correct answer below.

- 2 lines of symmetry ☐
- 4 lines of symmetry ☐
- 6 lines of symmetry ☐

4. Look at the **parallelogram** below how many lines of symmetry does it have?

Tick the correct answer below.

- 0 lines of symmetry ☐
- 2 lines of symmetry ☐
- 4 lines of symmetry ☐

5. Look at the **isosceles triangle** below how many lines of symmetry does it have?

Tick the correct answer below.

- 1 lines of symmetry ☐
- 2 lines of symmetry ☐
- 3 lines of symmetry ☐

6. Look at the **isosceles trapezium** below how many lines of symmetry does it have?

Tick the correct answer below.

- 0 lines of symmetry ☐
- 1 lines of symmetry ☐
- 2 lines of symmetry ☐

7. Look at the **rhombus** below how many lines of symmetry does it have?

Tick the correct answer below.

- 0 lines of symmetry ☐
- 2 lines of symmetry ☐
- 4 lines of symmetry ☐

8. Look at the **rectangle** below how many lines of symmetry does it have?

Tick the correct answer below.

- 0 lines of symmetry ☐
- 2 lines of symmetry ☐
- 4 lines of symmetry ☐

9. Look at the **regular pentagon** below how many lines of symmetry does it have?

Tick the correct answer below.

- 0 lines of symmetry ☐
- 3 lines of symmetry ☐
- 5 lines of symmetry ☐

10. Look at the **regular octagon** below how many lines of symmetry does it have?

Tick the correct answer below.

- 4 lines of symmetry ☐
- 8 lines of symmetry ☐
- 12 lines of symmetry ☐

11. Look at the **regular hexagon** below how many lines of symmetry does it have?

Tick the correct answer below.

- 2 lines of symmetry ☐
- 4 lines of symmetry ☐
- 6 lines of symmetry ☐

12. Look at the **trapezium** below how many lines of symmetry does it have?

Tick the correct answer below.

- 0 lines of symmetry ☐
- 2 lines of symmetry ☐
- 4 lines of symmetry ☐
