£ _____

Look again at the question above. How much would it **cost for 2 kilograms** of cheese? Write your answer in the space below.

£ _____

2. It costs **£2.52 for 1.5kg** of potato salad. How much does it cost for **500 grams** of potato salad? Write your answer in the space below.

£ _____

Look again at the question above. How much would it **cost for 1 kilogram** of potato salad? Write your answer in the space below.

£ _____

3. It costs **£2.48 for 2kg** of steak. How much does it cost for **500 grams** of steak? Write your answer in the space below.

£ _____

Look again at the question above. How much would it **cost for 1 kilogram** of steak? Write your answer in the space below.

£ _____

4. It costs **£6.44 for 3.5kg** of flour. How much does it cost for **500 grams** of flour? Write your answer in the space below.

£ _____

Look again at the question above. How much would it **cost for 1 kilogram** of flour? Write your answer in the space below.

£ _____

5. It costs **£3.32 for 1kg** of sugar. How much does it cost for **250 grams** of sugar? Write your answer in the space below.

£ _____

Look again at the question above. How much would it **cost for 2 kilograms** of sugar? Write your answer in the space below.

£ _____

6. It costs **£3.72 for 1.5kg** of butter. How much does it cost for **250 grams** of butter? Write your answer in the space below.

£ _____

Look again at the question above. How much would it **cost for 1 kilogram** of butter? Write your answer in the space below.

£ _____

7. It costs **£1.98 for 2.25kg** of sweets. How much does it cost for **250 grams** of sweets? Write your answer in the space below.

£ _____

Look again at the question above. How much would it **cost for 1 kilogram** of sweets? Write your answer in the space below.

£ _____

8. It costs **£3.85 for 2.75kg** of oats. How much does it cost for **250 grams** of oats? Write your answer in the space below.

£ _____

Look again at the question above. How much would it **cost for 1 kilogram** of oats? Write your answer in the space below.

£ _____

9. It costs **£4.86 for 1.8kg** of ham. How much does it cost for **200 grams** of ham? Write your answer in the space below.

£ _____

Look again at the question above. How much would it **cost for 1 kilogram** of ham? Write your answer in the space below.

£ _____

10. It costs **£1.80 for 3kg** of nuts. How much does it cost for **200 grams** of nuts? Write your answer in the space below.

£ _____

Look again at the question above. How much would it **cost for 1 kilogram** of nuts? Write your answer in the space below.

£ _____

11. It costs **£2.40 for 2.4kg** of washing powder. How much does it cost for **400 grams** of washing powder? Write your answer in the space below.

£ _____

Look again at the question above. How much would it **cost for 1 kilogram** of washing powder? Write your answer in the space below.

£ _____

12. It costs **£6.00 for 3.75kg** of ice. How much does it cost for **750 grams** of ice? Write your answer in the space below.

£ _____

Look again at the question above. How much would it **cost for 1 kilogram** of ice? Write your answer in the space below.

£ _____

Answers

1. £0.96	£3.84
2. £0.84	£1.68
3. £0.62	£1.24
4. £0.92	£1.84
5. £0.83	£6.64
6. £0.62	£2.48
7. £0.22	£0.88
8. £0.35	£1.40
9. £0.54	£2.70
10.£0.12	£0.60
11.£0.40	£1.00
12.£1.20	£1.60
