

Q2 (Place Value Multiplication) Day 127 **Name:** _____

1. Look at the equation below:

$$29 \times 45 = 1305$$

Use the equation **above** to answer the questions below:

$$4.5 \times 29 = \underline{\hspace{2cm}}$$

2. Look at the equation below:

$$16 \times 94 = 1504$$

Use the equation **above** to answer the questions below:

$$0.94 \times 16 = \underline{\hspace{2cm}}$$

3. Look at the equation below:

$$92 \times 64 = 5888$$

Use the equation **above** to answer the questions below:

$$9.2 \times 6.4 = \underline{\hspace{2cm}}$$

4. Look at the equation below:

$$157 \times 57 = 8949$$

Use the equation **above** to answer the questions below:

$$1.57 \times 57 = \underline{\hspace{2cm}}$$

5. Look at the equation below:

$$468 \times 352 = 164736$$

Use the equation **above** to answer the questions below:

$$4.68 \times 3520 = \underline{\hspace{2cm}}$$

6. Look at the equation below:

$$729 \times 573 = 417717$$

Use the equation **above** to answer the questions below:

$$0.729 \times 5730 = \underline{\hspace{2cm}}$$

7. Look at the equation below:

$$772 \times 729 = 562788$$

Use the equation **above** to answer the questions below:

$$0.772 \times 72.9 = \underline{\hspace{2cm}}$$

8. Look at the equation below:

$$147 \times 963 = 141561$$

Use the equation **above** to answer the questions below:

$$1470 \times 96.3 = \underline{\hspace{2cm}}$$

9. Look at the equation below:

$$4593 \times 719 = 3302367$$

Use the equation **above** to answer the questions below:

$$0.4593 \times 71900 = \underline{\hspace{2cm}}$$

10. Look at the equation below:

$$9826 \times 571 = 5610646$$

Use the equation **above** to answer the questions below:

$$0.9826 \times 0.571 = \underline{\hspace{2cm}}$$

11. Look at the equation below:

$$1762 \times 7289 = 12843218$$

Use the equation **above** to answer the questions below:

$$176200 \times 7.289 = \underline{\hspace{2cm}}$$

12. Look at the equation below:

$$7293 \times 5273 = 38455989$$

Use the equation **above** to answer the questions below:

$$72930 \times 527300 = \underline{\hspace{2cm}}$$

Answers

- 1. 130.5**
- 2. 15.04**
- 3. 58.88**
- 4. 89.49**
- 5. 16473.6**
- 6. 4177.17**
- 7. 56.2788**
- 8. 141561**
- 9. 33023.67**
- 10. 0.5610646**
- 11. 1284321.8**
- 12. 38455989000**
