

Q3 (Fraction of number) Day 118 Name: _____

1. Add $\frac{1}{10}$ of **110** to $\frac{1}{2}$ of **70**. Write your answer in the space below.

2. Take $\frac{7}{10}$ of **210** from $\frac{1}{3}$ of **39**. Write your answer in the space below.

3. Add $\frac{1}{4}$ of **140** to $\frac{1}{4}$ of **224**. Write your answer in the space below.

4. Take $\frac{1}{5}$ of **135** from $\frac{1}{2}$ of **190**. Write your answer in the space below.

5. Take $\frac{3}{5}$ of **165** from $\frac{3}{4}$ of **348**. Write your answer in the space below.

6. Add $\frac{3}{10}$ of **140** to $\frac{4}{10}$ of **320**. Write your answer in the space below.

7. Add $\frac{4}{10}$ of 162 to $\frac{7}{10}$ of 148. Write your answer in the space below.

8. Add $\frac{7}{10}$ of 96 to $\frac{3}{4}$ of 96. Write your answer in the space below.

9. Add $\frac{15}{100}$ of 88 to $\frac{7}{8}$ of 216. Write your answer in the space below.

10. Take $\frac{65}{100}$ of 300 from $\frac{7}{9}$ of 999. Write your answer in the space below.

11. Take $\frac{6}{11}$ of 132 from $\frac{35}{100}$ of 220. Write your answer in the space below.

12. Take $\frac{1}{20}$ of 500 from $\frac{4}{7}$ of 287. Write your answer in the space below.
