

Q4 (Place Value) Day 123**Name:** _____

1. Look at the four numbers below**48.36****4.836****0.4836****483.6**

The answer to the calculation below is one of the four numbers. Write the number you have chosen in the space below.

$$5.2 \times 93 \div 10 = \underline{\hspace{2cm}}$$

2. Look at the four numbers below**1.886****18.86****188.6****0.1886**

The answer to the calculation below is one of the four numbers. Write the number you have chosen in the space below.

$$4.1 \times 46 \div 10 = \underline{\hspace{2cm}}$$

3. Look at the four numbers below**17.5****1.75****0.175****175**

The answer to the calculation below is one of the four numbers. Write the number you have chosen in the space below.

$$3.5 \times 5 \div 100 = \underline{\hspace{2cm}}$$

4. Look at the four numbers below**130.9****0.1309****13.09****1.309**

The answer to the calculation below is one of the four numbers. Write the number you have chosen in the space below.

$$7.7 \times 17 \div 100 = \underline{\hspace{2cm}}$$

5. Look at the four numbers below

12.177

121.77

1217.7

1.2177

The answer to the calculation below is one of the four numbers. Write the number you have chosen in the space below.

$$9.9 \times 123 \div 10 = \underline{\hspace{2cm}}$$

6. Look at the four numbers below

0.7998

7.998

79.98

799.8

The answer to the calculation below is one of the four numbers. Write the number you have chosen in the space below.

$$8.6 \times 93 \div 100 = \underline{\hspace{2cm}}$$

7. Look at the four numbers below

115.7

11.57

1.157

0.1157

The answer to the calculation below is one of the four numbers. Write the number you have chosen in the space below.

$$1.3 \times 89 \div 1000 = \underline{\hspace{2cm}}$$

8. Look at the four numbers below

5.12

0.512

51.2

512

The answer to the calculation below is one of the four numbers. Write the number you have chosen in the space below.

$$6.4 \times 8 \div 100 = \underline{\hspace{2cm}}$$

9. Look at the four numbers below

99.36

0.9936

993.6

9.936

The answer to the calculation below is one of the four numbers. Write the number you have chosen in the space below.

$$4.8 \times 207 \div 10 = \underline{\hspace{2cm}}$$

10. Look at the four numbers below

40.11

4.011

0.4011

401.1

The answer to the calculation below is one of the four numbers. Write the number you have chosen in the space below.

$$10.5 \times 382 \div 1000 = \underline{\hspace{2cm}}$$

11. Look at the four numbers below

2.3729

237.29

23.729

2372.9

The answer to the calculation below is one of the four numbers. Write the number you have chosen in the space below.

$$12.2 \times 1945 \div 1000 = \underline{\hspace{2cm}}$$

12. Look at the four numbers below

545.232

54.5232

5452.32

5.45232

The answer to the calculation below is one of the four numbers. Write the number you have chosen in the space below.

$$11.1 \times 4912 \div 100 = \underline{\hspace{2cm}}$$

Answers**1. 48.36****2. 18.86****3. 0.175****4. 1.309****5. 121.77****6. 7.998****7. 0.1157****8. 0.512****9. 99.36****10.4.011****11.23.729****12.545.232**
