Comprehension

The Rockpool

- 1 Every summer, Ellie and her grandfather walked down to the rocky shore at low tide.
2 While Grandad searched for driftwood, Ellie knelt beside her favourite rockpool.
3 To most people it was just a puddle among the seaweed, but to Ellie it was a tiny world.
4 Transparent shrimp darted between the fronds, and a sly green crab guarded a crack.
5 One bright morning, something new glinted at the very bottom of the pool.
6 Half-buried in the sand lay a small, round object, crusted with tiny barnacles.
7 Ellie reached in, her fingers numb in the cold water, and lifted it carefully out.
8 It was an old brass compass, its glass cracked but its needle still trembling north.
9 "Grandad!" she called, scrambling over the slippery rocks towards him.
10 He turned the compass over in his weathered hands, a slow smile spreading across his face.
11 "Well, I never," he murmured. "Fishermen used these long before your mum was born."
12 "Can we keep it?" Ellie asked, hardly daring to breathe.
13 "The sea gave it to you," Grandad said, "so I would say it is yours to look after."
14 That evening, Ellie polished the compass until the brass gleamed like gold.
15 She set it proudly on her windowsill, where it caught the last of the evening light.
16 That night she dreamed of tall ships and distant harbours she had never seen.
17 The little compass still pointed north, steady and certain, as she drifted asleep.
18 Some treasures, she decided, are worth far more than money.

- 1 Look at line 4. Find one word that means the same as "see-through".

- 2 Look at the word "weathered" in line 10. What word type (part of speech) is it? Choose from: noun, verb, adjective, adverb, pronoun.

- 3 Look at the words below as they appear in the passage. What word type are they all? glinted (line 5), lifted (line 7), turned (line 10), polished (line 14)

4

Look at line 11. Find one word that means the same as “said quietly”.

5

Look at lines 14–18. How can you tell the compass became precious to Ellie? Give two details from the text.

Answers

Maths

1. C ($8 \times £3.49 = £27.92$; $£30 - £27.92 = £2.08 = 208 \text{ p}$)
2. C (243 and 729 are three-digit $\rightarrow 2$)
3. C ($a - 6 = 13$, so $a = 19$)
4. D ($8+6+9+2+10+7+3 = 45$ miles)
5. True, False, True (Thursday is the fewest, not Sunday)

Comprehension (guide)

1. transparent
2. adjective
3. verbs (past-tense verbs)
4. murmured
5. any two, e.g. she 'polished the compass until the brass gleamed'; 'set it proudly on her windowsill'; she dreamed of tall ships; 'worth far more than money'
