

Q2 (Conversion L-ml) Day 154**Name:** _____

1. Four types of bottles are used to store wine.

Bottle **A** holds **1.76 litres**.

Bottle **B** holds **947 ml**.

Bottle **C** holds **1.8 litres**.

Bottle **D** holds **963 ml**.

Arrange the bottles in order from the bottle that holds the smallest amount of wine to the bottle that holds the greatest amount. Write each letter in each of the spaces below to show the correct order of the bottles.

_____ (smallest) _____ (greatest)

2. Four types of bottles are used to store wine.

Bottle **A** holds **3.6 litres**.

Bottle **B** holds **3412 ml**.

Bottle **C** holds **3.471 litres**.

Bottle **D** holds **3812 ml**.

Arrange the bottles in order from the bottle that holds the smallest amount of wine to the bottle that holds the greatest amount. Write each letter in each of the spaces below to show the correct order of the bottles.

_____ (smallest) _____ (greatest)

3. Four types of bottles are used to store wine.

Bottle **A** holds **986 ml**.

Bottle **B** holds **0.99 litres**.

Bottle **C** holds **1 litre**.

Bottle **D** holds **999 ml**.

Arrange the bottles in order from the bottle that holds the smallest amount of wine to the bottle that holds the greatest amount. Write each letter in each of the spaces below to show the correct order of the bottles.

_____ (smallest) _____ (greatest)

4. Four types of bottles are used to store wine.

Bottle **A** holds **0.9 litres**.

Bottle **B** holds **0.99 ml**.

Bottle **C** holds **0.999 ml**.

Bottle **D** holds **0.99 litres**.

Arrange the bottles in order from the bottle that holds the smallest amount of wine to the bottle that holds the greatest amount. Write each letter in each of the spaces below to show the correct order of the bottles.

(smallest) _____ (greatest)

5. Four types of bottles are used to store wine.

Bottle **A** holds **6.257 litres**.

Bottle **B** holds **999 ml**.

Bottle **C** holds **6.3 litres**.

Bottle **D** holds **999.9 ml**.

Arrange the bottles in order from the bottle that holds the smallest amount of wine to the bottle that holds the greatest amount. Write each letter in each of the spaces below to show the correct order of the bottles.

(smallest) _____ (greatest)

6. Four types of bottles are used to store wine.

Bottle **A** holds **0.46 litres**.

Bottle **B** holds **459 ml**.

Bottle **C** holds **4.9 ml**.

Bottle **D** holds **0.046 litres**.

Arrange the bottles in order from the bottle that holds the smallest amount of wine to the bottle that holds the greatest amount. Write each letter in each of the spaces below to show the correct order of the bottles.

(smallest) _____ (greatest)

7. Four types of bottles are used to store wine.

Bottle **A** holds **12 ml**.

Bottle **B** holds **12 litres**.

Bottle **C** holds **0.12 litres**.

Bottle **D** holds **121 ml**.

Arrange the bottles in order from the bottle that holds the smallest amount of wine to the bottle that holds the greatest amount. Write each letter in each of the spaces below to show the correct order of the bottles.

_____ (smallest) _____ (greatest)

8. Four types of bottles are used to store wine.

Bottle **A** holds **4.09 litres**.

Bottle **B** holds **490 ml**.

Bottle **C** holds **4.1 litres**.

Bottle **D** holds **4001 ml**.

Arrange the bottles in order from the bottle that holds the smallest amount of wine to the bottle that holds the greatest amount. Write each letter in each of the spaces below to show the correct order of the bottles.

_____ (smallest) _____ (greatest)

9. Four types of bottles are used to store wine.

Bottle **A** holds **0.99 litres**.

Bottle **B** holds **991 ml**.

Bottle **C** holds **0.999 ml**.

Bottle **D** holds **0.919 litres**.

Arrange the bottles in order from the bottle that holds the smallest amount of wine to the bottle that holds the greatest amount. Write each letter in each of the spaces below to show the correct order of the bottles.

_____ (smallest) _____ (greatest)

10. Four types of bottles are used to store wine.

Bottle **A** holds **12.4 litres**.

Bottle **B** holds **1239 ml**.

Bottle **C** holds **9.692 ml**.

Bottle **D** holds **1.3 litres**.

Arrange the bottles in order from the bottle that holds the smallest amount of wine to the bottle that holds the greatest amount. Write each letter in each of the spaces below to show the correct order of the bottles.

_____ (smallest) _____ (greatest)

11. Four types of bottles are used to store wine.

Bottle **A** holds **1 litre**.

Bottle **B** holds **16.372 ml**.

Bottle **C** holds **999 ml**.

Bottle **D** holds **1.001 litres**.

Arrange the bottles in order from the bottle that holds the smallest amount of wine to the bottle that holds the greatest amount. Write each letter in each of the spaces below to show the correct order of the bottles.

_____ (smallest) _____ (greatest)

12. Four types of bottles are used to store wine.

Bottle **A** holds **120000 ml**.

Bottle **B** holds **12.6 litres**.

Bottle **C** holds **1.269 litres**.

Bottle **D** holds **12345 ml**.

Arrange the bottles in order from the bottle that holds the smallest amount of wine to the bottle that holds the greatest amount. Write each letter in each of the spaces below to show the correct order of the bottles.

_____ (smallest) _____ (greatest)
