

Q3 (Perimeter) Day 151 Name: _____

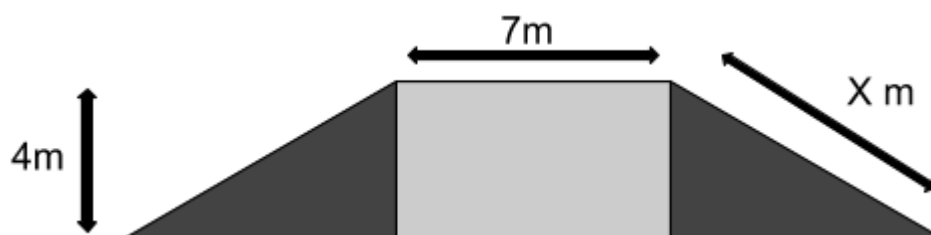

1. Look at the shape below. It has a **perimeter of 24m**. The **height and width** of the **triangle and the rectangle** are **equal**.

What is the **length of X**? Write your answer in the space below.

_____m

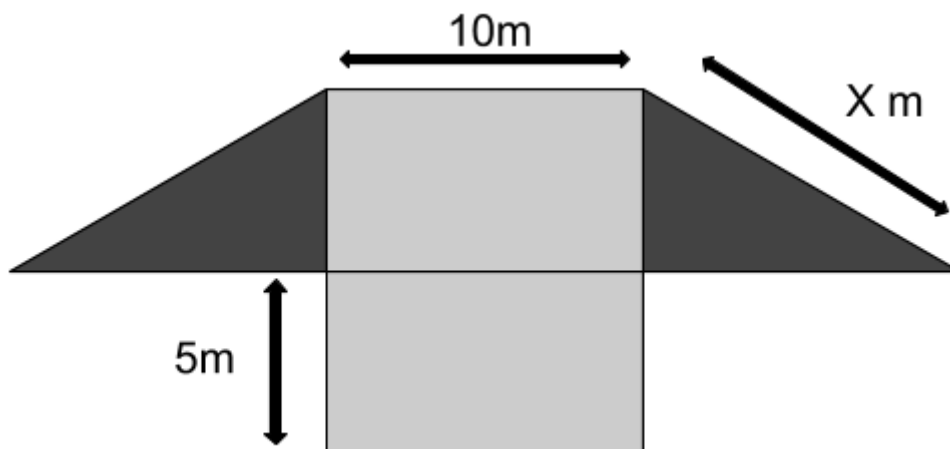

2. Look at the shape below. It has a **perimeter of 46m**. The **height and width** of the **triangle and the rectangle** are **equal**.

What is the **length of X**? Write your answer in the space below.

_____m

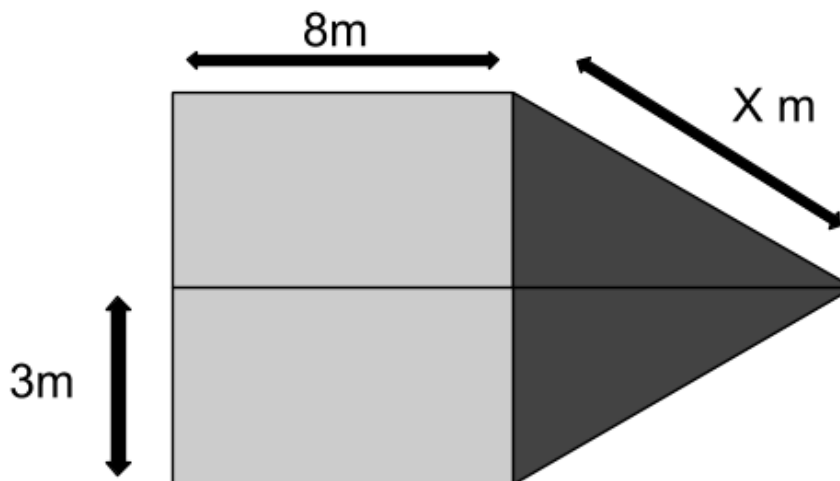

3. Look at the shape below. It has a **perimeter of 74m**. The **height and width** of the **triangle and the rectangle** are **equal**.

What is the **length of X**? Write your answer in the space below.

_____m

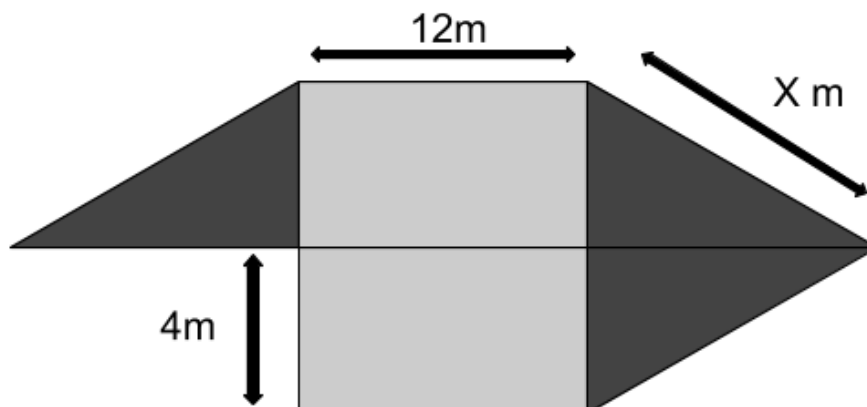

4. Look at the shape below. It has a **perimeter of 42m**. The **height and width** of the **triangle and the rectangle** are **equal**.

What is the **length of X**? Write your answer in the space below.

_____m

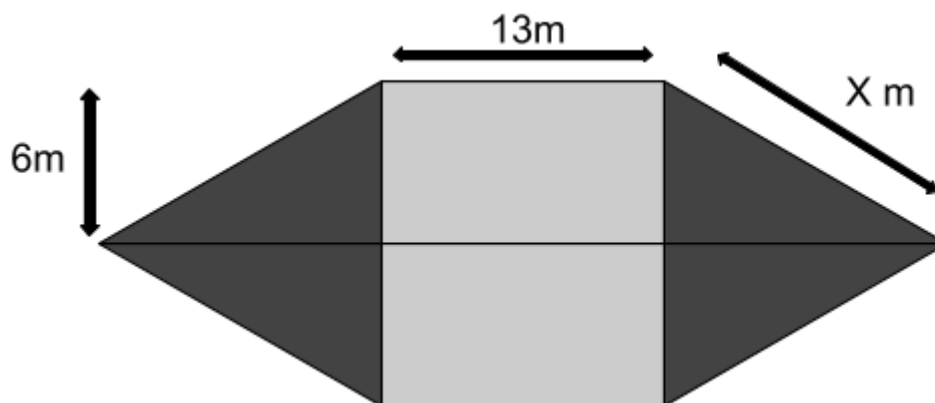

5. Look at the shape below. It has a **perimeter of 85m**. The **height and width** of the **triangle and the rectangle** are equal.

What is the **length of X**? Write your answer in the space below.

_____m

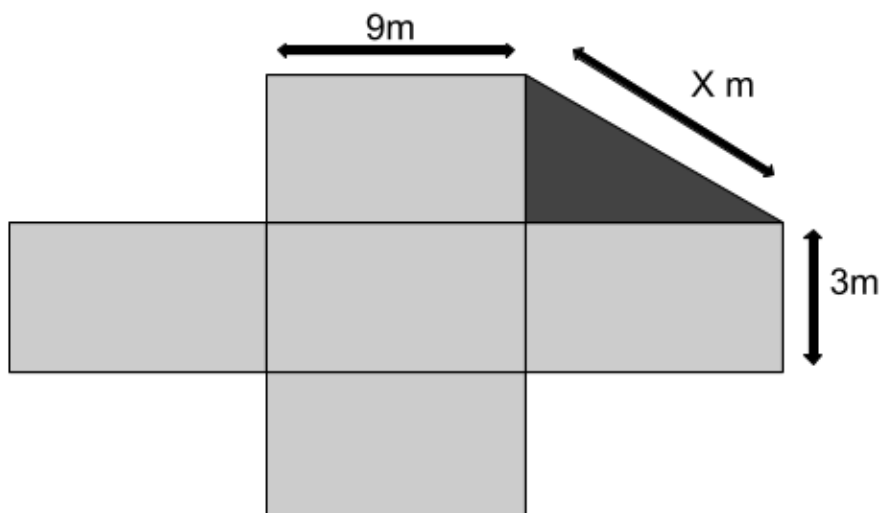

6. Look at the shape below. It has a **perimeter of 90m**. The **height and width** of the **triangle and the rectangle** are equal.

What is the **length of X**? Write your answer in the space below.

_____m

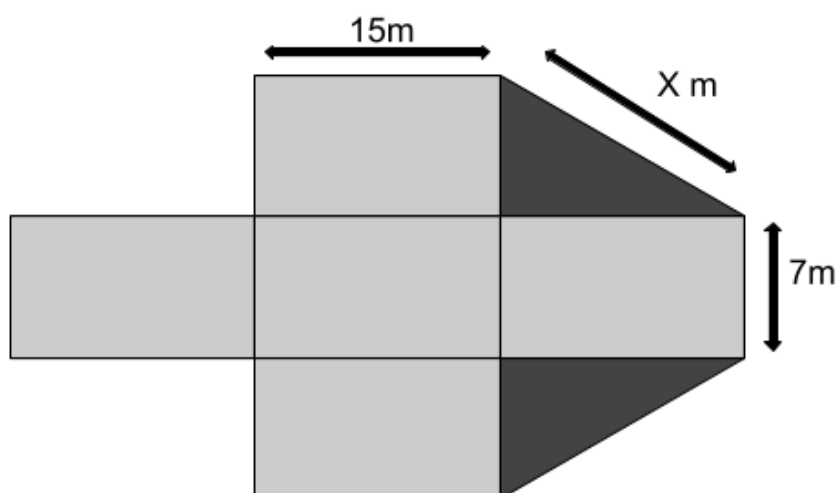

7. Look at the shape below. It has a **perimeter of 72m**. The **height and width** of the **triangle and the rectangle** are **equal**.

What is the **length of X**? Write your answer in the space below.

_____m

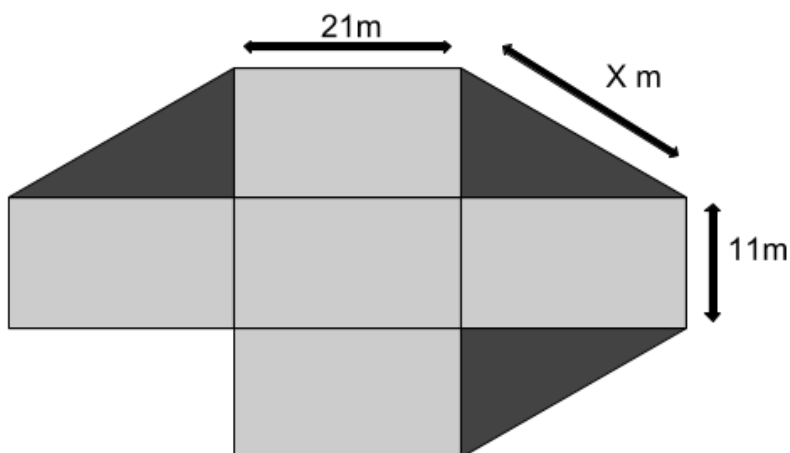

8. Look at the shape below. It has a **perimeter of 128m**. The **height and width** of the **triangle and the rectangle** are **equal**.

What is the **length of X**? Write your answer in the space below.

_____m

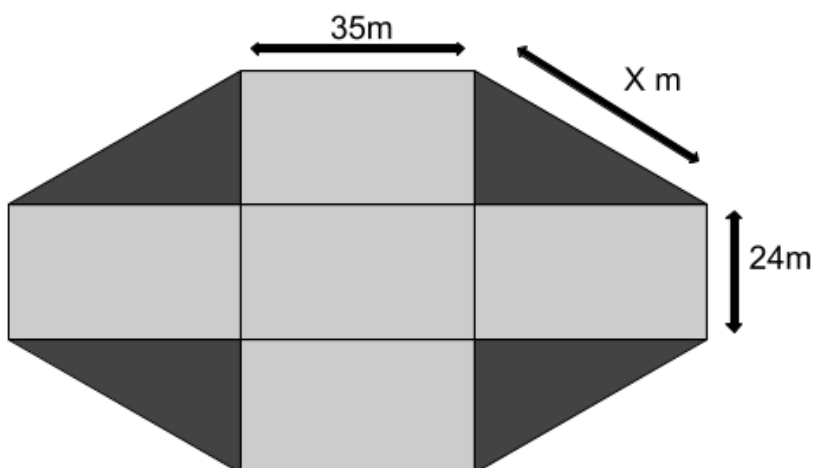

9. Look at the shape below. It has a **perimeter of 171m**. The **height and width** of the **triangle and the rectangle** are **equal**.

What is the **length of X**? Write your answer in the space below.

_____m

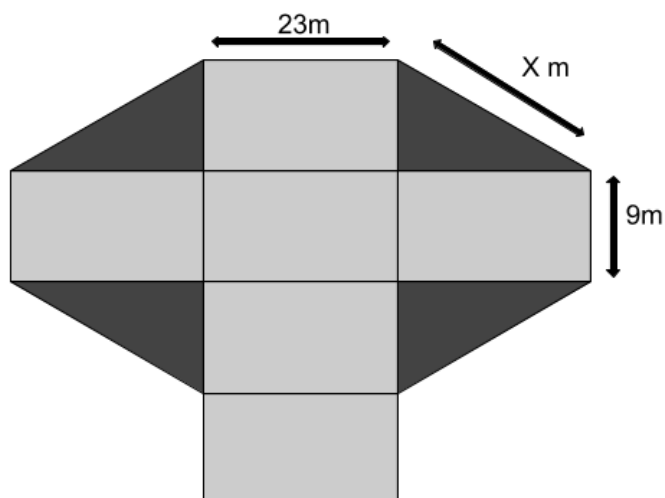

10. Look at the shape below. It has a **perimeter of 282m**. The **height and width** of the **triangle and the rectangle** are **equal**.

What is the **length of X**? Write your answer in the space below.

_____m

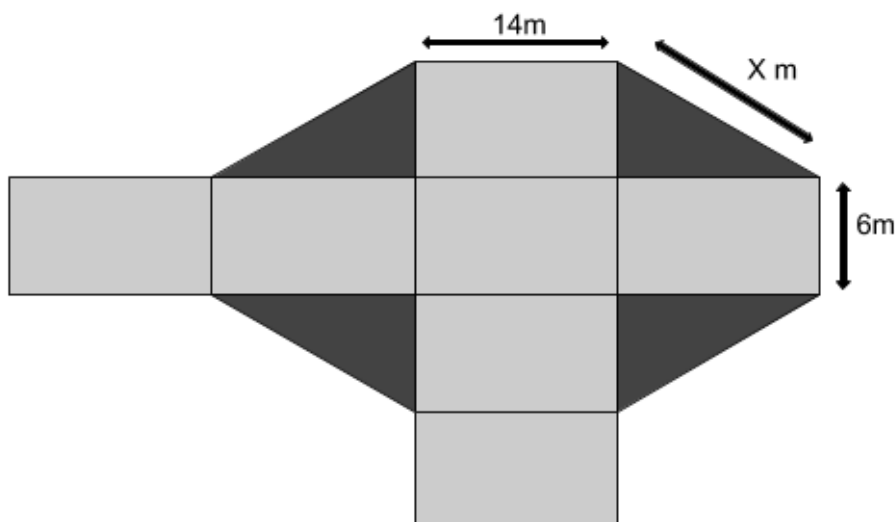

11. Look at the shape below. It has a **perimeter of 190m**. The **height and width** of the **triangle and the rectangle** are **equal**.

What is the **length of X**? Write your answer in the space below.

_____m

12. Look at the shape below. It has a **perimeter of 144m**. The **height and width** of the **triangle and the rectangle** are **equal**.

What is the **length of X**? Write your answer in the space below.

_____m

Answers**1) 6****2) 9****3) 12****4) 10****5) 15****6) 16****7) 12****8) 20****9) 25****10) 41****11) 27****12) 16**
