

Q1 (Inverse Operations) Day 159 Name: _____

1. Complete the calculation below by writing the correct **number** in the space provided.

$$\underline{\hspace{2cm}} + 46 = 685$$

2. Complete the calculation below by writing the correct **number** in the space provided.

$$567 - \underline{\hspace{2cm}} = 123$$

3. Complete the calculation below by writing the correct **number** in the space provided.

$$\underline{\hspace{2cm}} \times 8 = 504$$

4. Complete the calculation below by writing the correct **number** in the space provided.

$$6435 \div \underline{\hspace{2cm}} = 5$$

5. Complete the calculation below by writing the correct **number** in the space provided.

$$35.9 + \underline{\hspace{2cm}} = 435.3$$

6. Complete the calculation below by writing the correct **number** in the space provided.

$$\underline{\hspace{2cm}} - 32.5 = 24.53$$

7. Complete the calculation below by writing the correct **number** in the space provided.

$$4 \times \underline{\hspace{2cm}} = 2328$$

8. Complete the calculation below by writing the correct **number** in the space provided.

$$\underline{\hspace{2cm}} \div 23 = 16.52$$

9. Complete the calculation below by writing the correct **number** in the space provided.

$$\underline{\hspace{2cm}} + 0.349 = 32.53$$

10. Complete the calculation below by writing the correct **number** in the space provided.

$$436 - \underline{\hspace{2cm}} = 34.5$$

11. Complete the calculation below by writing the correct **number** in the space provided.

$$22 \times \underline{\hspace{2cm}} = 50.6$$

12. Complete the calculation below by writing the correct **number** in the space provided.

$$\underline{\hspace{2cm}} \div 0.9 = 0.03$$

Answers

- 1. 639**
- 2. 444**
- 3. 63**
- 4. 1287**
- 5. 399.4**
- 6. 57.03**
- 7. 582**
- 8. 379.96**
- 9. 32.181**
- 10.401.5**
- 11.2.3**
- 12.0.027**
