

Q3 (Conversion km-m) Day 162 **Name:** _____

1. The distance between **Village A** and **Village B** is **2 km**. I start at **Village A** and walk **half of the distance to Village B**. **How far** have I walked? Write your answer in **metres**. Write your answer in the space below.

_____m

2. The distance between **Village A** and **Village B** is **5 km**. I start at **Village A** and walk **half of the distance to Village B**. **How far** have I walked? Write your answer in **metres**. Write your answer in the space below.

_____m

3. The distance between **Village A** and **Village B** is **2.5 km**. I start at **Village A** and walk **half of the distance to Village B**. **How far** have I walked? Write your answer in **metres**. Write your answer in the space below.

_____m

4. The distance between **Village A** and **Village B** is **1.8 km**. I start at **Village A** and walk **a quarter of the distance to Village B**. **How far** have I walked? Write your answer in **metres**. Write your answer in the space below.

_____m

5. The distance between **Village A** and **Village B** is **9.6 km**. I start at **Village A** and walk **a quarter of the distance to Village B**. How far have I walked?
Write your answer in **metres**. Write your answer in the space below.

_____m

6. The distance between **Village A** and **Village B** is **4.5 km**. I start at **Village A** and walk **a quarter of the distance to Village B**. How far have I walked?
Write your answer in **metres**. Write your answer in the space below.

_____m

7. The distance between **Village A** and **Village B** is **2.04 km**. I start at **Village A** and walk **three quarters of the distance to Village B**. How far have I walked? Write your answer in **metres**. Write your answer in the space below.

_____m

8. The distance between **Village A** and **Village B** is **3.92 km**. I start at **Village A** and walk **three quarters of the distance to Village B**. How far have I walked? Write your answer in **metres**. Write your answer in the space below.

_____m

9. The distance between **Village A** and **Village B** is **8.01 km**. I start at **Village A** and walk **two fifths of the distance to Village B**. **How far** have I walked? Write your answer in **metres**. Write your answer in the space below.

_____m

10. The distance between **Village A** and **Village B** is **12.08 km**. I start at **Village A** and walk **three fifths of the distance to Village B**. **How far** have I walked? Write your answer in **metres**. Write your answer in the space below.

_____m

11. The distance between **Village A** and **Village B** is **11.09 km**. I start at **Village A** and walk **seven tenths of the distance to Village B**. **How far** have I walked? Write your answer in **metres**. Write your answer in the space below.

_____m

12. The distance between **Village A** and **Village B** is **31 km**. I start at **Village A** and walk **nine tenths of the distance to Village B**. **How far** have I walked? Write your answer in **metres**. Write your answer in the space below.

_____m

Answers

- 1. 1000**
- 2. 2500**
- 3. 1250**
- 4. 450**
- 5. 2400**
- 6. 1125**
- 7. 1530**
- 8. 2940**
- 9. 3204**
- 10.7248**
- 11.7763**
- 12.27900**
